PROJECTS / OPEN-SOURCE

TRAVEL BUDDY | [LINK](#)

Javascript, React, Material UI, CSS, React-Router, Tailwind CSS

- Travel Buddy is a web application that helps travelers connect with other travelers to plan trips together
- Users are greeted with a login page and have the option to signup
- Travelers should be able to create travel groups with a destination, a date, and the ability to add fellow travelers

TRENDING MOVIE APP | [LINK](#)

Javascript, React, React-Router, CSS

- With this project I was aiming to build a movie app where the user can view trending movies and shows by the day or week. User can also search for shows and movie.
- I was able to design the navbar and the movie cards using CSS. I also implemented react-router to navigate through various pages.
